

## Assignment Feedback

QQ1: The answer to Q1 is missing or incomplete as the response starts with Q1 a). Which does not answer the question.

QQ1 a: The topic of Q1 a is not provided in the answer sheet, which was supposed to be covered in the assignment.

QQ2: Drill down and drill up capabilities are explained correctly with a slight error in coherence.

QQ3: Redundancy in the answer regarding data clustering and sorting. Sorting is the major topic of the question.

QQ4: The answer to Q4 is missing. The role that business reports play in an organization's operations is not discussed.

QQ5: The answer is satisfactory with the elaboration on need for data pre-processing, inconsistency in the answer.

QQ6: The question and answer mismatch exists here. It should be a discussion about data transformation.

QQ7: The student answered a question related to data reduction correctly, including the concept of data reduction.
